

### Tells Positive Cure For all Foot Troubles

Science has proven that nearly all foot troubles originate from a common cause: that of injured tissues. The following information will be welcomed by thousands of victims of daily foot torture. No matter how many patent medicines you have tried in vain, this treatment, well known to foot doctors, will do the work. "Dissolve two table-spoonfuls of Calocide compound in a basin of warm water. Soak the feet for a full fifteen minutes, gently rubbing the sore parts." The effects are

marvelous. All pain disappears instantly and the feet feel simply delighted. Corns and calluses can be peeled right off. Bunions, swollen feet and aching feet get immediate relief. Use this treatment a week and your foot troubles will be a thing of the past. Calocide works through the pores and removes the cause. Don't waste time. Get it at once. Any druggist has Calocide in stock or will get it from his wholesale house. A twenty-five cent box is said to be enough to cure the worst feet. Don't be persuaded to try something else instead. Calocide is prepared only at Laboratories of Medical Formula Co., of Dayton, Ohio, and Chicago, Ill.

### TOPICS OF THE

#### TOWN AND STATE.

#### Says Smallpox is Prevalent.

An Oklahoma City physician says smallpox is spreading throughout Oklahoma, and that 28 cases exist in one town in the state. Oklahoma City has protested against the dropping of smallpox cases there.

#### A Good Household Salve

Ordinary ailments and injuries are not of themselves serious, but infection or low vitality may make them dangerous. Don't neglect a cut, sore, bruise or hurt because it's small. ## LIQUOR LOBBY SPENDS VAST SUMS MONEY

### ANTI-SALOON LEAGUE YEAR BOOK COMPARES STATISTICS, SHOWING METHODS

Washington, May 3.—That the malt and distilled liquor dealers of the country expended vast sums in "lobbying and corruption" purposes is the declaration of Ernest H. Cherrington, in the Year Book of the anti-saloon league, just published. In the malt liquor trade 88.6 per cent of all expenses are charged to "miscellaneous expenses," and in the distilled trade this account shows 96.6 per cent. In other words, the miscellaneous expenses are supposed to represent the money expended against prohibition and local option.

The Year Book declares that the greatest industrial progress has been made in prohibition states, or where the liquor traffic is repressed. It says the highest wage scale prevails in "dry" sections, the percentage of increase in wage earners in the nine prohibition states prior to 1915, based on figures covering the ten years ended with 1903.

The publication declares that in the same division of states for the same period the nine prohibition states show an increase of 103.3 per cent in the value of products, as against 85.6 for the 17 near-prohibition states, \$2.2 for the partially licensed states and 73.7 for the license states.

For the same division and the same period the proportionate increase in wages in the prohibition states was declared to be 103 per cent, as compared with 77 per cent in the near-prohibition states, 73 per cent in the partially licensed states and only 61 per cent in the "wet" states.

Of the total wages paid for all services in all industries in the United States 21 per cent is said to have been paid for officials' salaries, while only 73 per cent went to labor. In the 14 largest industries, only 19 per cent goes for officers' salaries, while 81 per cent goes to labor. In the liquor manufacturer industries, 23 per cent (or almost twice as much) goes to officers' salaries and only 64 per cent to labor.

Other significant statistics indicate that while all the industries of the United States, taken together, employ 359 wage earners for each \$1,000,000 invested and while the 14 largest industries in question employ 508 wage earners for each \$1,000,000 invested, the liquor industry employs only 81 wage earners for each \$1,000,000 invested.

An interesting comparison is made of the increase in capital invested in prohibition states and "wet" states. The capital invested in various manufacturing industries in the nine prohibition states in 10 years shows an average increase of 107.2 per cent. In the 17 near-prohibition states, 127.5 per cent and in the licensed states, only 63.1 per cent.

In the manufacture of all intoxicating liquors in 1909 the sum of \$25,000,000 was paid in officers' salaries, \$3,250,000 as wages to labor, and \$200,192.00 for materials. The capital invested in all manufacturing of intoxicating liquors for 1909 was \$771,216,600 and the value of products was \$593,550,000, an increase in the value of products in 10 years of 24.4 per cent.

#### A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 2256 Olive Street, St. Louis, Mo. Sold by druggists—Adv.

"STAR—Good For One—Better for Two"

## Men Who Chew Are Men Who DO

THE farmers, on whom so much of America's success depends, are almost without exception, tobacco chewers. And more farmers use STAR tobacco than use any other brand.

It speaks pretty well for STAR that men who know tobacco, many of them being tobacco raisers, prefer mellow STAR Tobacco—in the thick, tasty plug.

Imagine a ripe orange in a thin skin. That's just like a plug of STAR—so full of ripe, good "chew" that it can't dry out—made clean and kept that way.

And don't confuse STAR with any of those 14 or 15 ounce "pound" plugs. Each plug of STAR weighs 16 ounces. Ask the dealer to let you see the revenue stamp on the box. That will tell the story of honest weight.

So great is the nation-wide demand for STAR that a year's output of sixteen ounce STAR plugs is equal in weight to 416,666 bushels of wheat.
